

Welcome! In New England, being on the water and boating are virtually synonymous and for over 75 years, the members of Watertown Yacht club have been proud to be part of that special community. Originally founded as a “working persons” yacht club, we stay true to the fundamentals of that vision with a strong focus on member relationships, participation, events and self-governance. The Watertown Yacht Club is a diverse community made up of men and woman from many social and professional backgrounds who all share a love of boating and the unique opportunities and amenities that this club has to offer.
